NAN HAUSER

Nan Hauser is the President and Director of the Center for Cetacean Research and Conservation. Her home base is in Rarotonga where she is the Principal Investigator of the Cook Islands Whale Research Project and Director of the Cook Islands Whale Education Center. As a Registered Nurse, Nan teaches and practices medicine on the outer islands. Her field research includes The Bahamas as a study site for beaked whales, sperm whales, and dolphins. Nan serves on the executive committee of the South Pacific Whale Research Consortium and is currently a PhD candidate at Southern Cross University, Australia.

About CCRC

The Center for Cetacean Research and Conservation is a tax exempt non-profit organization founded to conserve whales and dolphins and the ecosystems they inhabit.

MISSION

- To conduct benign research on Cetaceans
- Raise awareness of marine conservation issues
- Provide curriculum enrichment and community outreach programs
- Offer practical experiences for interns
- Publish scientific findings
- Produce educational films for television
- Collaborate with other organizations and scientists
